MEET NORTHWEST ILLINOIS ECONOMIC DEVELOPMENT

Northwest Illinois Economic Development is an entity that works to enhance the prosperity of the communities it serves, specifically, Jo Daviess and Carroll counties in Northwest Illinois. And while this work may be different for each community, NWILED is a regional organization committed to improving the quality of life for its members and communities through economic development leadership, which includes attracting new companies, helping existing companies grow or assisting entrepreneurs with their businesses.

Some of the programs NWILED has developed and implemented, which are often outside of what many municipalities offer to enhance business development, includes:

- Assisting entrepreneurs plan out the launch of their new business or advising a corporation looking to relocate in the county on site selection and incentives that are available to them on a local, state or federal level.
- Acts as a conduit for new and existing businesses with a network of peer contacts, businesses, officials, local chambers, and regional planning organizations and other economic development organizations and bureaus.
- Conducts numerous professional lunch and learn workshops, roundtables, an entrepreneurial boot camp and workforce development events such as Manufacturing and Trades Day. NWILED also manages the Genz Small Business Development Fund, maintains an online Jobs Board and offers job shadowing opportunities.

- NWILED also takes active roles in housing efforts, site readiness activities, tourism marketing and collaborations and alliances with other neighboring counties and regions.
- NWILED's website (www.nwiled.org) is an active resource center that includes more detailed information about the organization and user-friendly navigation to assist its members and outside venues in exploring opportunities.

NWILED is a non-profit organization that was formed in 2008 by the Jo-Carroll Energy Board of Directors whose main goals were to spearhead economic development structures, funding and programs in Northwest Illinois. The board's main focus was to form a regional development entity concentrating on growing the economy and public/private partnerships to achieve these goals. Furthering the board's commitment to NWILED's success is the public and private memberships that helps NWILED support, expand, enhance and continue the goals and objectives for the county's growing communities.

The organization is also active on Facebook, LinkedIn and Instagram.

For more information on becoming a member, contact David Schmit
NWILED Regional Director, at 815-297-7361
